#### **What Is “ELNEC-For Veterans-Critical Care”**

Due to the unique needs of Veterans, a specific curriculum has been developed for critical care nurses to meet these needs. The curriculum provides an overview of palliative care throughout critical care areas within the Veterans Affairs and throughout the US. Pain and symptom management, communication, culture, loss/grief/bereavement, and care in the final days and hours of the Veteran’s life will be reviewed. Using case studies, role play, and various video clips, the participant will have opportunities to learn not only about palliative care, but also how to educate others and to disseminate and implement the curriculum.

## **FAQ: ELNEC-FOR VETERANS-CRITICAL CARE COURSE**

**Q: What will I actually be doing during the training?**

A: During the two-day course, you will be reviewing the ELNEC-For Veterans-Critical Care syllabus. Eight modules will be covered (see agenda below). Each module is accompanied by objectives, outline, power point slides, "talking points" for each slide, references, case studies, and supplemental teaching materials. This course is designed to give you a syllabus that will support you in future educational endeavors within your institution and community.

**Q: I attended ELNEC-Core/Critical Care several years ago. I work in a non-VA facility and many of my ICU patients are Veterans. I think having this extra education/curriculum would be valuable. How does the ELNEC-Core/Critical Care differ from the ELNEC-For Veterans- Critical Care curriculum?**

A: Though some of the content is similar to ELNEC-Core/Critical Care, there is more in-depth information on such subjects as pain (substance abuse, stoicism issues), symptom management (post-traumatic stress disorder, anxiety, wound care, etc. A review of demographics specific to Veterans will offer opportunities to look at current programs used to provide compassionate palliative care. Case studies are all related to many of the unique needs of Veteran's. A review of the current Veterans Affairs palliative care initiatives will be discussed. Honoring Veterans at the end of their life is important. A discussion and review will be provided on how other VAMC's/hospitals across the US provide various ceremonies to honor Veterans during their last weeks/days of life and after their death.
