The Honorable Todd Young  
United States House of Representatives  
Washington, D.C. 20515

Dear Representatives Walden, Kind, Blumenauer, Capps, Davis, Harper, Johnson, Kelly, McKinley, Meehan, Schakowsky, Schrader, Thompson, Tiberi, Welch, and Young,

On behalf of the 41 undersigned organizations representing the Nursing Community, we would like to thank you for introducing the Home Health Care Planning Improvement Act of 2015 (H.R. 1342). Collectively, the Nursing Community represents over one million Registered Nurses, Advanced Practice Registered Nurses (APRNs), nurse executives, nursing students, nursing faculty, and nurse researchers.
Our organizations are committed to improving the health and health care of our nation by collaborating to support the education and practice of APRNs, and therefore fully support this bill.

APRNs provide cost effective, high-quality care and have been recognized by Medicare for 20 years. Home health, in particular, is one area where APRNs are heavily relied upon for their expert clinical skills. Yet, Medicare law currently prohibits APRNs from certifying Medicare patients for the home health benefits and from signing home health plans of care.

The Home Health Care Planning Improvement Act of 2015 would specifically allow nurse practitioners, certified nurse-midwives, and clinical nurse specialists to certify home health services. Our organizations applaud this legislation as it not only supports these APRNs to the full scope of their education and practice, but more important, ensures that patients receive home health services in a timely manner, particularly in rural and underserved areas.

Again, we commend the introduction of H.R. 1342, and appreciate your support for America’s patients and APRNs. If the Nursing Community can be of any assistance to you or your staff, please do not hesitate to contact its convener, Suzanne Miyamoto, at smiyamoto@aacn.nche.edu or 202-463-6930.

Sincerely,
